Subject: Genetic Testing Registry (GTR) comment

Dear Sir/Madam,

As a patient, I would love to have a resource such as the GTR to get a better understanding of these tests.

While all of the points listed under item 6 are important and interesting to various stakeholders (<http://grants.nih.gov/grants/guide/notice-files/NOT-OD-10-101.html>), I'd be especially interested in point o (Utility (e.g., clinical and/or personal utility) or outcomes).

Thanks for gathering this feedback,
Stephane
