Friends of Patients at the NIH
(Formerly known as The Friends of the Clinical Center)

Presented by:
Jeffrey Vigne
President – Board of Directors
Friends of Patients at the NIH
“If clinical trials are to be successful, it is critical that more people get involved. We need to spread the word about the value of participating in clinical trials. Signing up for a clinical trial may indeed benefit medical research and help future generations. But it is not strictly an altruistic endeavor. In many instances, trial participants do gain personal advantages, such as improved disease outcomes or better health. “And we should not be shy about telling that story.”

Dr. Francis Collins - Director NIH
“Home is the place where, when you have to go there, they have to take you in.” — Robert Frost
