i cannot attend. but the policies that this lousy negligent substandard agency has used with respect to biosecurity are pure fraud. you give projects to china, an enemy certianly of the usa. how can you be so blind and stupid as to help our enemies. clearly they will bomb us if we try to help taiwan whcich does not want to be absorbed by china.

keep our research in the usa. only in the usa. help our own economy and stop giving out the most wasteful projects in the world. giving cocaine to birds to see if they get woozy shows the endless stupidity of how you are treating the \$50 billion dollars of taxpaqyer dollars that you get.

i do not believe there is real work going on in this agency. i think you all regard it asa place you fool around and get paid for doing nothing. its a sinecure, not a productive site for america. we shoudl criminally investigate what has gone on in this awful agency that has a slipshod dishonest reputation. it needs shut down. we need to start fresh. there is no biosecurity att this agency,. this agency hates america or it would not have caused l million deaths in usa from covid vaccines that did not work. you present a mask and a fraud imo. shut down all funding for this agency. it has no merit. it has no reason for being.
